## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

**DETAILED ACTION**

1. This Office action is responsive to communication filed on 10/30/07. Claims 15, 16, 19, 21, 24, 25 and 28 are allowable.
2. The Office has reviewed the prosecution history of parent application 09/552,559 (now U.S. Pat. No. 6,681,255) in connection with the instant application.

***Continued Examination Under 37 CFR 1.114***

3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 10/30/07 has been entered.

***Allowable Subject Matter***

4. Claims 15, 16, 19, 21, 24, 25 and 28 are allowed.
5. The following is an examiner's statement of reasons for allowance: Applicant's IDS submission after notice of allowance has been considered. The prior art cited in the

IDS dated 10/30/07 does not disclose the claimed formula for calculating wait time, and does not change the reasons for allowance given on 12/28/06, which is repeated below.

Applicant's equation for calculating wait time compares the aggregated bytes received against the expected number of bytes at the target bandwidth. When the actual number of bytes exceeds the target number of bytes, the system waits until the bytes counts are the same, thereby achieving the target bandwidth.

Mogul teaches delaying the sending of an acknowledgement message in order cause data transmission to occur approximately at a target bandwidth. This is achieved through a delay factor D, which is adjusted to keep transmission at the target bandwidth. Since the system of Mogul achieves a target bandwidth by delaying the acknowledgement, and not the request, as in the present invention, the delay factor D is not allowed to fluctuate excessively. Allowing the delay factor D to fluctuate too much will cause acknowledgement timeouts in the system. For this reason, the system of Mogul can only achieve the target bandwidth approximately.

Both systems allow for transmission to remain at or below a target bandwidth. The formula for wait time of the present invention provides for a more accurate means of achieving this.

The prior art of record fails to reasonably teach singly or in combination the formula for a wait time, as claimed in the present invention, to limit the transmission rate of a system to a target bandwidth. The Office is unable to find an analogous reference that teaches such a formula.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
